

D DUST FREE[®]
AIR CLEANERS

Series **375**

Clean Air.

5-YEAR
Guaranteed
WARRANTY

www.dustfree.com

Today more than ever, we all have a need for clean air. Indoor environments nowadays are air tight, energy efficient marvels of engineering. But most homes and buildings are deficient in one critical area, air quality. The Series 375 is designed to remedy this problem in any home, room, or building.

The Series 375 is an "Efficacy-designed" system. Efficacy refers to how all components work together at creating the cleanest possible indoor air. Three major factors must be met when designing a system that effectively cleans indoor air. Filtration, air flow patterns, and collection rate.

Each of these factors alone cannot do the job, they must work together. An air cleaner's filter can have a high efficiency rating but cannot be effective if it does not use air flow patterns to bring in polluted air from all corners of the space. And if it doesn't have the power to remove pollutants from the air faster than they are generated then the battle for clean air is lost. The Series 375 incorporates these factors resulting in a system that will make the room air you breathe, up to 90% cleaner once it's in operation.

And when in operation, the Series 375 is unobtrusive and quiet. A "Sound Muffler" chamber is designed into the cabinet to reduce noise. The small size of the system allows for quick installation on a wall or above a door. The system is out of the way and does not require any floor space, and does not cause a draft.

Considering efficacy, ease and economy of maintenance, and versatility, the Series 375 will outperform any air cleaner in it's class.

GENERAL DESCRIPTION

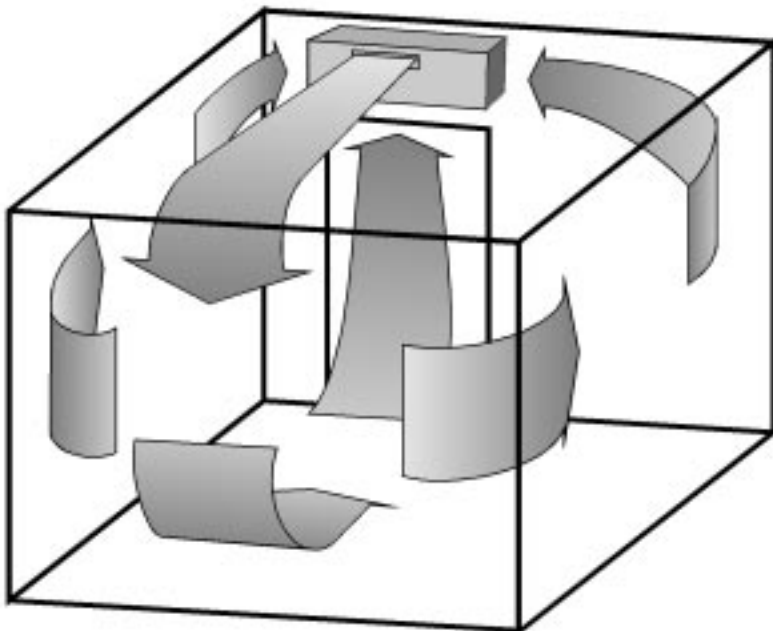

The Series 375 is a fully self-contained room air cleaner for rooms up to 500 sq. ft. For larger rooms, multiple units are required. The controllable clean air discharge system provides air movement and circulation similar to a ceiling fan. The air movement compliments the heating and cooling system. When in operation, the Series 375 will reduce the level of airborne contaminants in the space, up to 90%, including gases and odors. A unique option for the Series 375 is a radio-wave remote control for turning the unit on from anywhere in the room. The Series 375 is mounted on the center of a wall or above a doorway, against the ceiling.

The Series 375 is available in a standard color of Arctic White but is also available in custom-matched colors.

EASE OF OPERATION

No tools or special skills are required to remove and replace the filters. The low cost pre-filters can last up to 90 days and the primary filters up to 18 months. Simply mount the 375 on the furnished wall brackets, plug in, and turn on.

SERIES 375 AIR FLOW

FILTRATION

STANDARD

- Disposable Carbon Pre-filter
- Borosil Primary Filter
- Electro-fiber Primary Filter
- 1/2" Sorbent Secondary Filter

OPTIONS

- 1/2" Permanganate Filter
- 1/2" Permanganate/Charcoal Filter
- 1/2" Zeolite Filter
- Electronic Odor Remover

The filtration for the Series 375 is specifically chosen to capture a wide variety of airborne contaminants. The disposable carbon pre-filter captures odors and chemicals. The Borosil is a high efficiency dust-size particulate filter. The Electro-Fiber filter captures smoke-sized particulate. And the variety of 1/2" sorbent filters allows the unit to be set up for capturing specific odor and gas contaminants.

WARRANTY

Eramco, Inc. warrants this products cabinet and electrical components to be free from defects in materials and workmanship for a period of Five (5) years from the date of purchase by the original end-user.(Excluding filters.)

SPECIFICATIONS

DIMENSIONS:

30"L x 13.5"W x 13.5"H
(76.2 x 34.3 x 34.3 cm)

WEIGHT:

Hanging 49 lbs. (22.2 kg)
Shipping 56 lbs. (25.4 kg)

MOTOR:

Standard: 100/120V, 50/60 Hz, 1 PH,
1.9 Amps.3-speeds.

Optional: 220V, 50/60 Hz, 1PH.

AIR FLOW PERFORMANCE

170 - 330 CFM (4.8 -9.3 CMM) depending on configuration and speed control setting.

OPTIONS:

Electronic Odor Remover (Ozone)
Radio Control On/Off Switch
Custom Colors

Specifications subject to change without notice.

APPLICATIONS

- Hotel Rooms
- Motel Rooms
- Nursing Homes
- Doctor Offices
- Dentist Offices
- Schools
- Reception Areas
- Homes
- Businesses
- Restaurants
- Many More
