

Dust Free – Living[™]

Specifications, Product Features

General

Designed and built in the USA, the Dust Free Living[™] air-cleaner is created by humans - for humans. The *Living* air scrubber sits on four heavy duty locking swivel casters, and is equipped with a 100% aluminum frame for easy mobility. The system contains a pre-filter that first screens large dust from the air, followed by a large High-Efficiency Particulate Air (HEPA) filter, capturing 99.97% of dust, pollen, mold, and bacteria 0.3 microns in size. Insulated with sound absorbing lining, the Living unit can cycle productively in occupied spaces.

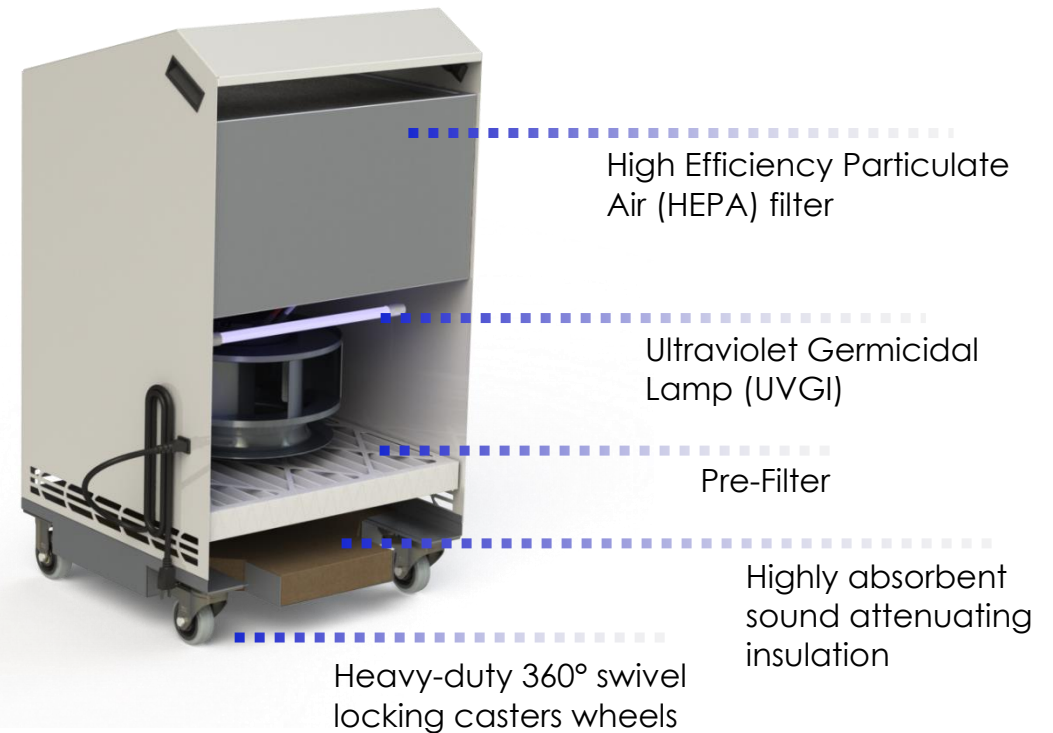

- HEPA + Pre-Filter
- 400 CFM – 1700 CFM
- 360° Sound Insulated
- Optional UVGI Install
- Heavy-duty EasyRoll[™] swivel locking casters

High Capacity
HEPA Air Filter
removes **99.97%** of
pollen, dust, mold,
bacteria, and any
airborne particles 0.3
microns (μm) in size

Specifications

Dimensions – 20"W x 21"L x 37.5"H
Variable-Speed – Min 400 CFM – Max 1700 CFM
Main Filter – 20" x 20" x 12" HEPA
Pre-Filter – MERV 7
Optional UVGI – 15" T5 254nm 19W
Modular – 3" Heavy Duty w/ Swivel + Locking
Electrical – AC 115/230V, 50/60Hz, 6/3A
Insulation – Green Guard Certified™ sound insulation
Sound Power – 38 - 59 dBA
UL Listing – UL 507 safety listing pending. UL 2998 Zero Ozone emissions pending.

Dust Free – Living™

Engineered with professionals and students in mind, the Living® is insulated with Green Guard Certified™ advanced sound attenuation, insuring it does its job without interrupting yours.
