

AIR CLEANERS

Platform MAC

A two-in-one filtration and transition solution for space-constrained vertical up flow applications.

Filtration + Transition Solution

The Dust Free[®] Platform MAC provides a simple, space-saving, filtration and 90° transition to the furnace or air handler in vertical, bottom air-return installations. Saves both time and space for side drop and up flow applications that need air filtration.

High Efficiency.

MERV 11 performance captures dust, dander, smoke, pollen, and mold spores. MERV 13 filters available.

Space-Constrained Applications.

Space-saving 90° duct transition to the furnace or air handler in vertical, bottom air-return installations.

Adaptable Duct Inlet.

Includes adapter plate to fit different duct and equipment opening sizes to suit almost any application.

Reversible Door Design.

The filter access door is easily reversible to fit left-sided or right-sided return applications.

Construction.

Sturdy 22-gauge painted steel cabinet and door.

Saves Installation Time.

No separate transition installation is required.

Easy Maintenance.

Easy filter access simplifies maintenance.

Minimized Duct Leakage.

Sealed design and quality construction minimizes gaps and leaks.

IMAGES

Ducting

The Platform MAC uses a duct inlet adapter plate to accommodate most duct sizes.

Furnace

Platform MAC

The door is easily reversible to fit left-sided or right-sided return applications.
